

Student Voices: Using the CSU and UC eligibility tools Transcript

Narrator: Student Voices: Using the CSU and UC eligibility tools. Speaker: Diego Munoz, CSU San Marcos.

Diego: The CSU eligibility tool. It helped me find San Marcos. It helped me realize that I actually was a prime candidate to be at San Marcos when I was applying to colleges in high school through CaliforniaColleges.edu. I really enjoyed the A-G tracker.

Narrator: CaliforniaColleges.edu is shown highlighting the academic plan, CSU eligibility. This includes the CSU GPA and the A-G Progress for CSU.

Diego: The A-G tracker helped me realize that, you know what, I wasn't that bad of a student, and that there are plenty of schools that I actually can apply to and that would accept me.

Narrator: Speaker: Ana Castillo, UC San Diego

Ana: CaliforniaColleges.edu was a great help due to its A-G course tracking in the academic planner, it lets you see what classes you have taken and if they are actually CSU and UC eligible. I was able to go and ask my counselor questions about some of my classes that were in my academic planner because they showed up as yellow and I wasn't sure if they would be eligible for CSU and UC. The academic planner and the CSU and UC eligibility tool also helped me see how my GPA would fit once I would be applying to a CSU or a UC, which was really helpful when applying to colleges because I didn't even know how to calculate it.

Narrator: CaliforniaColleges.edu. Discover, plan, launch. Learn more at CaliforniaColleges.edu/resourcehub/
