

Student Voices: Using My Career Plan Transcript

Narrator: Student Voices: Using My Career Plan. Speaker: Citlalic McCoy. CSU San Marcos.

Citlalic: Once you guys have planned out your colleges, it is down time for you to start picking out careers. Even though it doesn't say "My career goals," it says "My Career Plan," you don't have to have a plan right now.

Narrator: My Career Plan shows a Career List, Assessments, and Top Careers.

Citlalic: This tool, actually, I liked it because I, like I said, I didn't know what I wanted to do. It was literally like a politician to lawyer to, I don't know. I was able to keep track of my careers in order and I also would be able to compare and contrast them based on how I felt about them. They give you descriptions of the jobs, so it helps you better understand like what you would be doing if you were doing that job. It allows you to create new career goals and it tracks how you are meeting them and your progress towards them.
