Our Role in the Cradle-to-Career Data System

CaliforniaColleges.edu is a crucial component of the C2C Data System.

AB 132 outlines specific steps in order to implement the Cradle-to-Career (C2C) Data System and realize its objectives, which include:

- Making CaliforniaColleges.edu tools and services **free to all California school districts serving 6-12th grade students**, with a goal of full participation by June 30, 2026.
- Designating CaliforniaColleges.edu as the **preferred starting point for all applications to California public colleges (CCC, CSU, UC), FAFSA, and CADAA**.

CCGI Partner Districts

More than 70% of California's high school students are enrolled in a school district that has partnered with CCGI.

Our Partner Districts include more than **250 school districts** and serve more than **1.3 million 9th-12th grade students** in California.

And each year, our Partner list continues to grow!

Career Exploration

Our Career Search Tool helps students find the right career path by figuring out what they want to be and what it will take for them to get there.

CaliforniaColleges.edu allows students to:

- Explore careers that match their interests.
- See what kind of pay and growth potential jobs offer.
- Tie career assessment results to career pathways, majors, and colleges.
- Understand what education and skills they will need to pursue their career of choice.

Why It Matters

Most California high school students will attend a California public higher education institution:

According the most recent DataQuest College-Going Rate report, **87% of high school completers** from local counties who **enrolled in college** did so **at a UC, CSU or CCC.**

Partnership With CCGI

Partner Districts have a formal data-sharing agreement (MOU) with CCGI in order to bring their high school transcript data to CaliforniaColleges.edu.

Unique features for Partner Districts include:

- **A-G Alignment Support** for districts to ensure that students get correct "a-g" credit for high school courses and grades in their college applications.
- **CSU and UC Eligibility Tools** that allow students to see their progress towards meeting the minimum requirements for admission to a CSU and UC.
- The ability to **import verified transcript data** to their Cal State Apply application and UC Application (beginning Fall 2024).

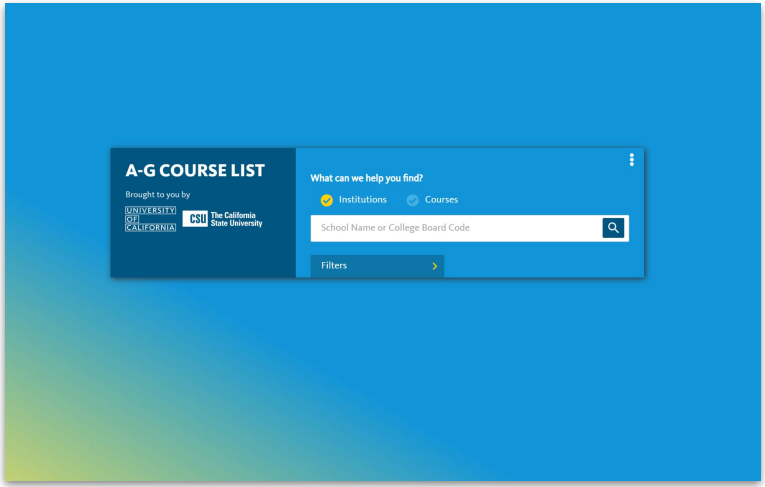
The Course Management Portal

The Course Management Portal (CMP) is where all California districts and/or their schools manage their public-facing “A-G Course List”

- Every school that serves high school students in California needs to submit courses to the CMP for review and approval by UC, if that course is to appear on the school’s A-G Course List.
- The CMP course list is what determines which courses fulfill an “A-G” subject area for the purpose of CSU and UC admissions processes

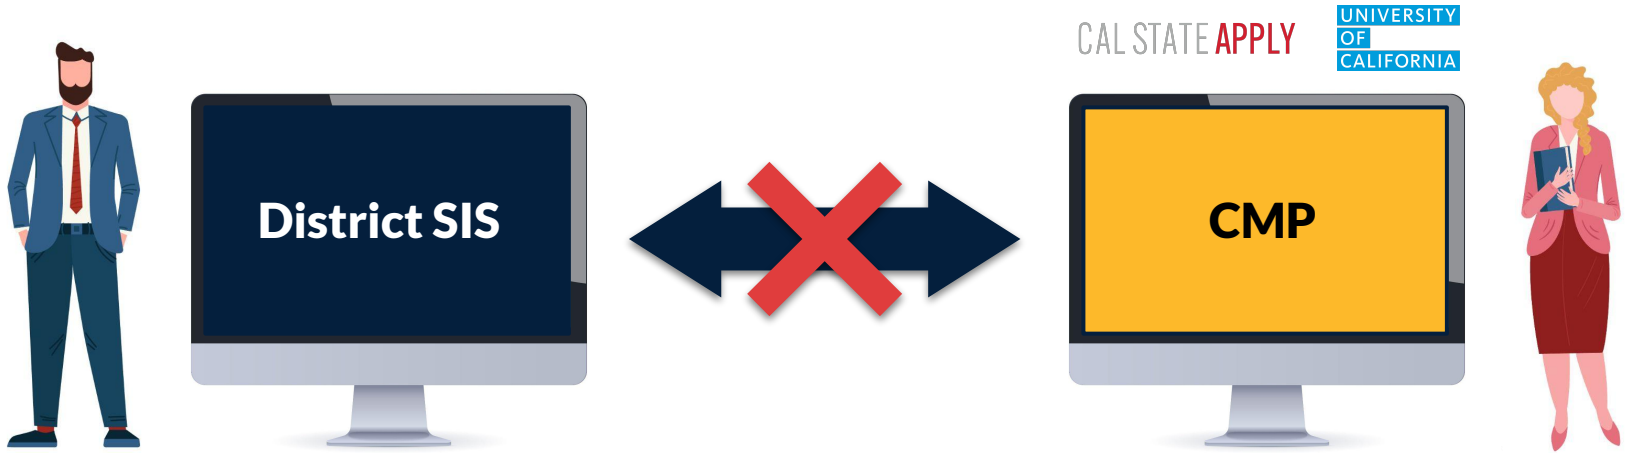


CaliforniaColleges.edu is managed by the California College Guidance Initiative. © 2024 California College Guidance Initiative. All rights reserved.

CALIFORNIA COLLEGES.edu
DISCOVER. PLAN. LAUNCH.

What is A-G Misalignment?

A-G mismatch occurs when the way a course is listed in a district's Student Information System (SIS) doesn't align with the way it is listed in the CMP.



CaliforniaColleges.edu is managed by the California College Guidance Initiative. © 2024 California College Guidance Initiative. All rights reserved.

CALIFORNIA COLLEGES.edu
DISCOVER. PLAN. LAUNCH.

What A-G Misalignment Looks Like

CMP Misalignment inhibits successful electronic data transmission and may prevent CSU and UC campuses from recognizing A-G approved coursework.

A-G Alignment Support

CCGI provides technical assistance help LEAs ensure that courses indicated as fulfilling A-G requirements match the Course Management Portal

- California Education Code 60900(g) requires that LEAs maintain at least a 90% rate of alignment between A-G coursework, as listed in the local SIS, and how those courses are registered in the UC Course Management Portal A-G course list.
- CCGI has a dedicated Technical Assistance team to support districts in improving their CMP match rate
- CaliforniaColleges.edu reporting features help educators identify and resolve issues with their CMP list that may impact eligibility for students:
  - Academic Report: **Which district courses are flagged as "A-G" but do not match against the CMP?**

CaliforniaColleges.edu is managed by the California College Guidance Initiative. © 2024 California College Guidance Initiative. All rights reserved.

Verifying Courses Against the CMP

CaliforniaColleges.edu matches the course grade records provided by school districts against the school's A-G list in the Course Management Portal (CMP).

- CaliforniaColleges.edu uses the official CMP course list for each school to **verify the transcript data** shared by districts.
- Verification of data provided from the SIS against the CMP informs how coursework visualizes for students in the CSU and UC eligibility tools, as well how and which courses students can import directly into their CSU and UC applications.

Cal State Apply Course Import

CaliforniaColleges.edu Course Import

What It Does	What It Does NOT Do
Saves time: Can significantly reduce the time required to complete Cal State Apply applications.	It does **NOT** replace the need to review all course records for accuracy prior to Cal State Apply application submission.
Reduces errors: Verifies high school course records against the CMP and pre-populates that information into a Cal State Apply application.	
Supports intentional review: Allows counselors and college access staff to identify and focus time and energy on students records that are the most complex.	It does **NOT** replace the need for counselors and/or college access staff to support students.

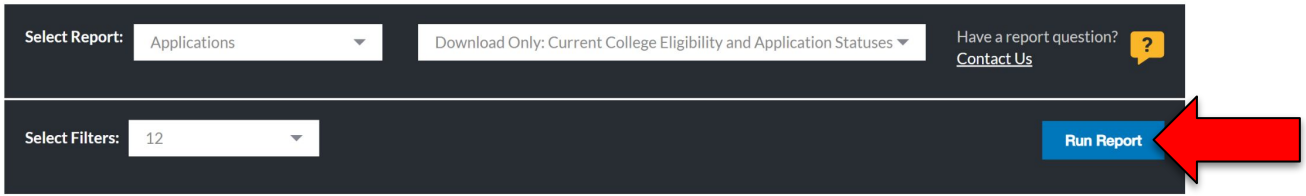
School-Level and District-Level Data

View application submission statuses for all applications connected to CaliforniaColleges.edu – to all CCC, CSU and/or UC campuses and Financial Aid– updated nightly

- The **"Download Only: College eligibility and application statuses"** report offers a single, downloadable file to help you identify students for intervention and/or opportunities:



- Filter this report in multiple ways to answer questions, such as:
  - Which students are a-g eligible, but have not applied?
  - Which students have applications in progress, but not yet submitted?
  - Which students have not applied to any segment?
  - Which students have applied to a specific campus?
